DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

> A person shall be entitled to a patent unless –
>
> (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 4 and 5 are rejected under 35 U.S.C. 102(b) as being anticipated by Berger et al (US 3,775,064).

Berger et al disclose a catalytic reformer comprising a catalytic reformer characterized by at least one reactor tube having an inlet and outlet for receiving air (figure 1), a catalyst (8) disposed within the tube and an outlet in the second end, an ignition device, spark plug (16) for initiating an exothermic reaction between fuel and air (col. 3, lines 59-65), a control system (col. 3, lines 55-57 and col. 4, lines 44-46) for selecting fuel and air flow rate and operating the ignition device, and a power generation system is an engine (figure 1).

Response to Arguments

3. Applicant's arguments filed 5/10/04 have been fully considered but they are not persuasive.

Applicant argues that Berger et al fail to teach a fuel inlet in fluid communication with the catalytic reactor. However, examiner respectfully disagrees. In figure 1 of Berger et al,

blower 30 is generating gas and air to be fed into the catalytic reactor (8) (col. 4, lines 44-64). Therefore, applicant's argument is not persuasive. Claims 4 and 5 remain rejected.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
